

Nuzlocke / Soullink Tracker

A sketchy exploration of the entry, encounter, soullink, roster, progress, settings and streaming surfaces — mobile and desktop side-by-side. Read for shape and flow, not pixels.

death of one → propagation arrow auto-marks partner

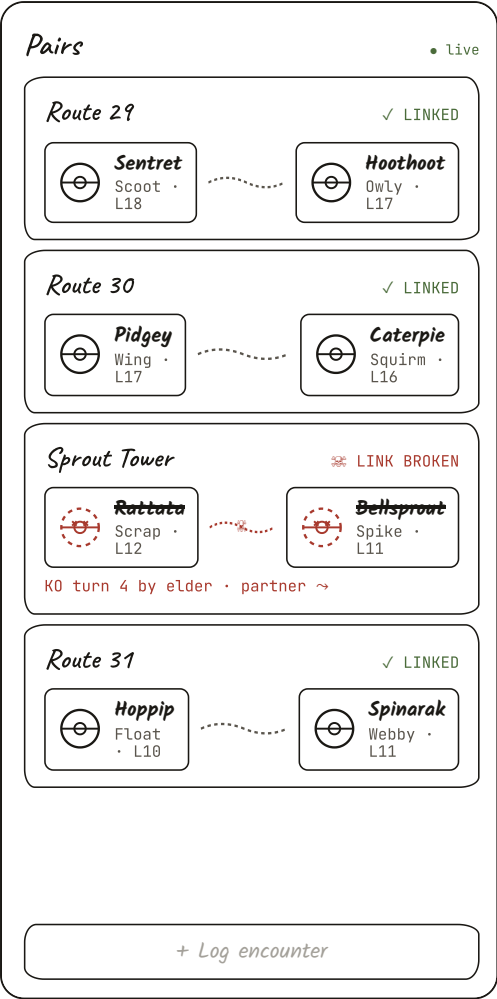

desktop • 920 × 640

Variant A

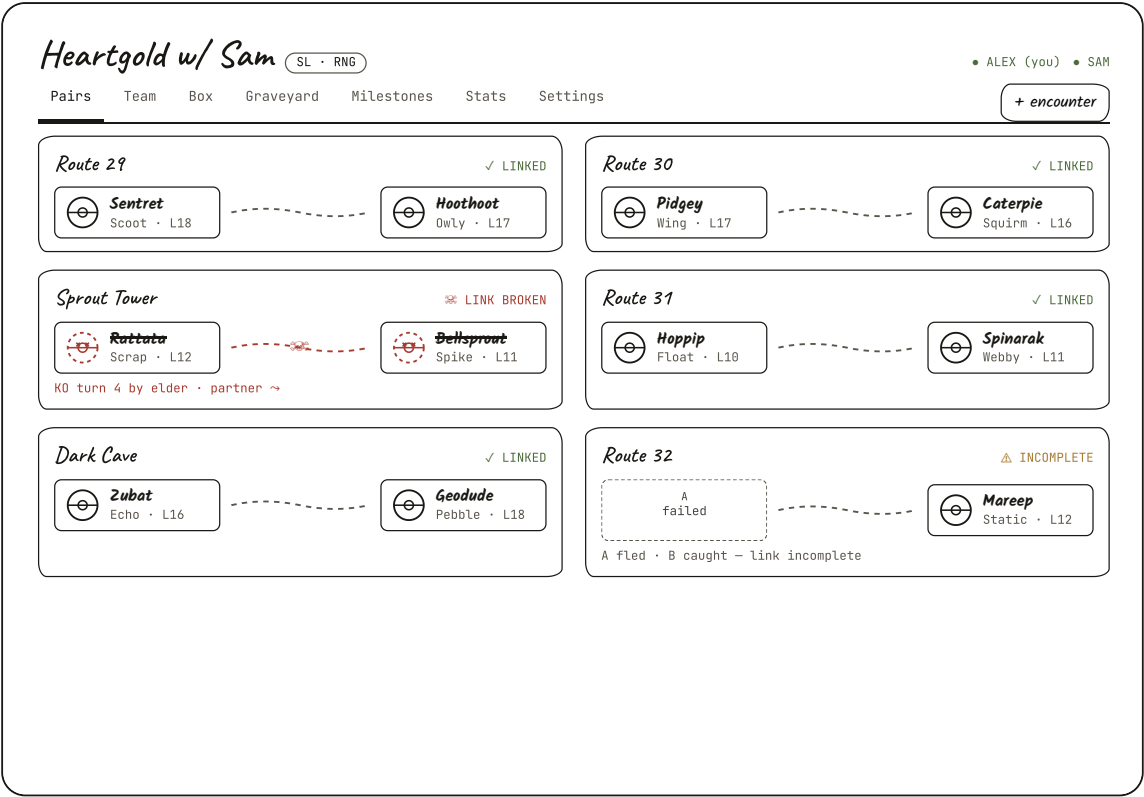

Tight, dense, table-like.
Columns ALEX • LINK •
SAM with link icon
between.

- scannable for many areas
- filters work cleanly
- desktop-first feel

★ chosen direction.

mobile • 320 × 640

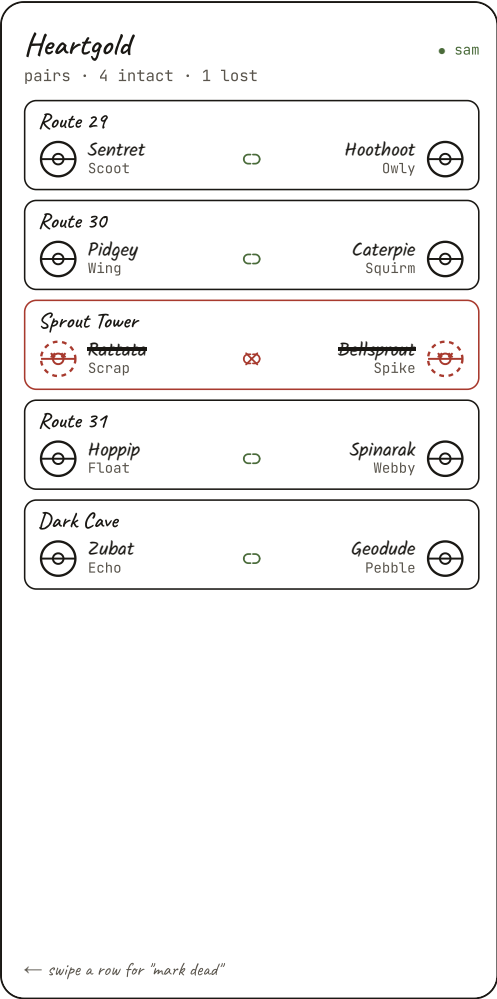

desktop • 920 × 640

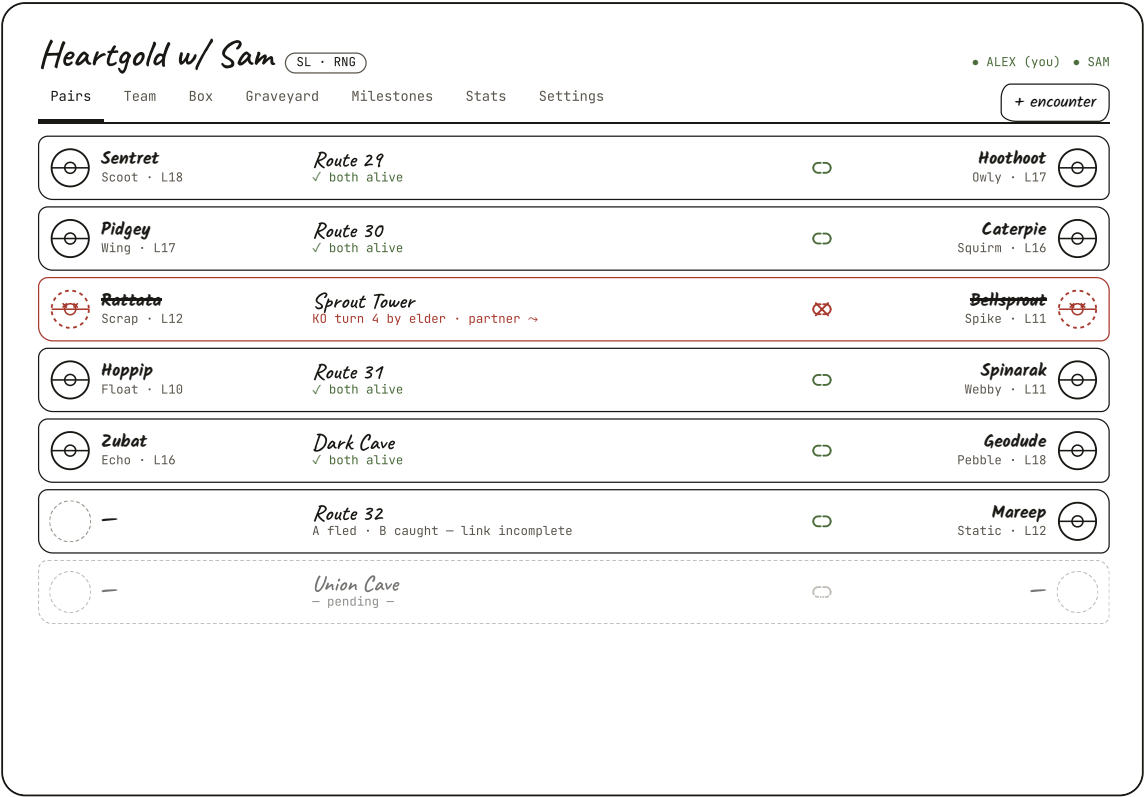

Variant B

Two-up cards per area,
dashed line between
players visualises the link.

- more visual, less dense
- great for fewer areas at once
- broken link is dramatic

mobile • 320 × 640

desktop • 920 × 640

Variant C

One row per area. Sprites flank a shared band — area name + link status in the middle.

- focus on the area, not each player
- asymmetric layouts feel calmer
